

CPB221 Exercise ch02-2

1. Twin Stars

- Draw twin stars as shown in the figure below using Turtle.
- The interior angle of the corner of a star is 36 degrees.
- Please submit a python source file (*.py)

CPB221 Exercise ch02-2

2. Write Your Name

- Draw your name in Korean using Turtle. For foreign students, draw only the last name.
- Helpful functions
 - `turtle.penup()`: After executed, no lines are drawn when the turtle moves.
 - `turtle.pendown()`: After executed, lines are drawn again when the turtle moves.
 - `turtle.circle(int r)`: Draw a circle of radius *r*.
- Please submit a python source file (*.py)
